EXPERIENCE

UX Designer / Ideo

Oct 2019 – present

Currently, I'm UX Designer and Business Analyst who is responsible for preparing wireframes and functional specifications for clients from different industries. In analysis I focus on user needs, technical aspects and I work closely with stakeholders to ensure business needs. I conduct workshops and meetings with clients. Additionally I collaborate daily with marketing team and project managers. I have experience in conducting usability tests with our internal products.

Software Web Developer / Ideo

Nov 2016 – Oct 2019

I was part of a devteam on one of the biggest e-commerce website from automotive industry in Poland. I was responsible for implementing new features and maintaining the website. I collaborated closely with Product Owner, SEO & marketing team.

Academic teacher / UITM in Rzeszow

Mar 2021 – present

I teach students the basics of design and research and how it's connected with the process of creating digital products. I run design classes in Figma which allows me to cooperate with students.
