EXPERIENCE

Senior UX Designer / Guidewire Software

Apr 2022 – present

I'm a Senior UX Designer at Guidewire, where I'm part of the team that works on the our own Design System focused on insurance industry. My main responsibilities include overseeing components, patterns, documentation, and our Figma library. I collaborate closely with product, UX, dev and delivery service teams to ensure that our design system is implemented effectively across the organization and beyond, to our partners and customers. Additionally, I'm responsible for educating and promoting the usage of our design system.

Academic teacher / UITM in Rzeszow

Mar 2021 – present

I teach students the basics of design and research and how it's connected to the process of creating digital products. I use Figma to run design classes and collaborate with students.

UX Designer / Ideo

Oct 2019 – Mar 2022

I worked as a UX Designer and Business Analyst, creating designs for clients from various industries (including furniture and education). I proposed solutions that were usable and intuitive based on research and best design practices. On a daily basis, I collaborated with designers, stakeholders, marketing, SEO, IT, and sales people.

Software Web Developer / Ideo

Nov 2016 – Oct 2019

I was part of a development team for one of the largest ecommerce websites in the automotive industry in Poland. My responsibilities included implementing new features and maintaining the website. I worked closely with the Product Owner, SEO team, and marketing team.
